1. Audience Registration and Login

2022 (24th) China Mining Conference and Exhibition will be held in an *online+offline* form. The event will run on the China Mining Cloud Platform (hereinafter the Cloud Platform). Participation details are as follows.

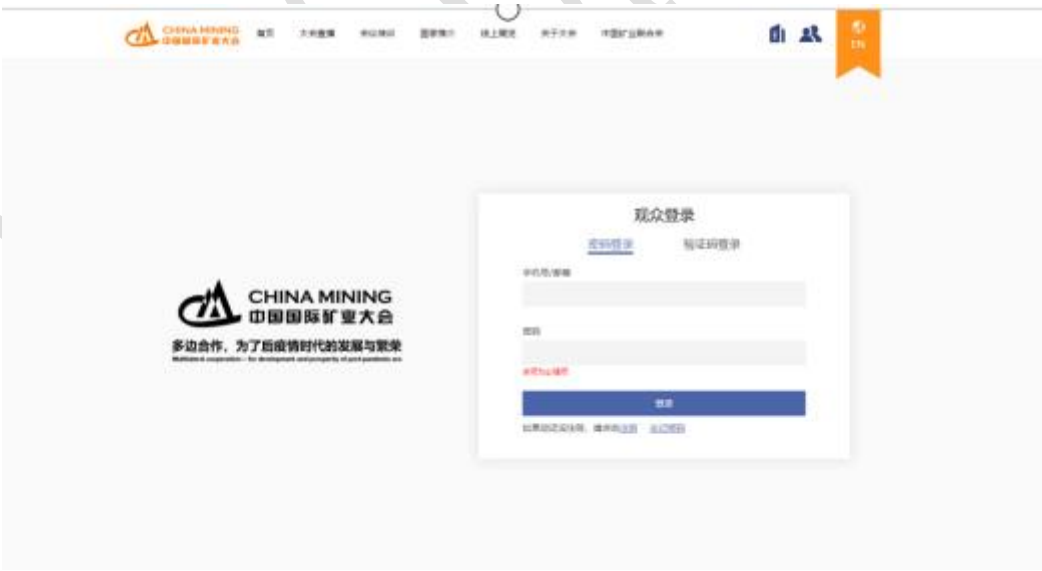
(1). Access

Participants may visit China Mining Cloud Platform at cloud.chinamining.org.cn and click on the User icon on top right or the floating sidebar on the right, for audience entrance. Via the audience entrance, users may login, or users without accounts may register an account.

COPYING

(2). Audience Login

After entering registration page via the audience entrance, users may login with their account details. You may login with your “phone number + password” or “phone number + verification code”.

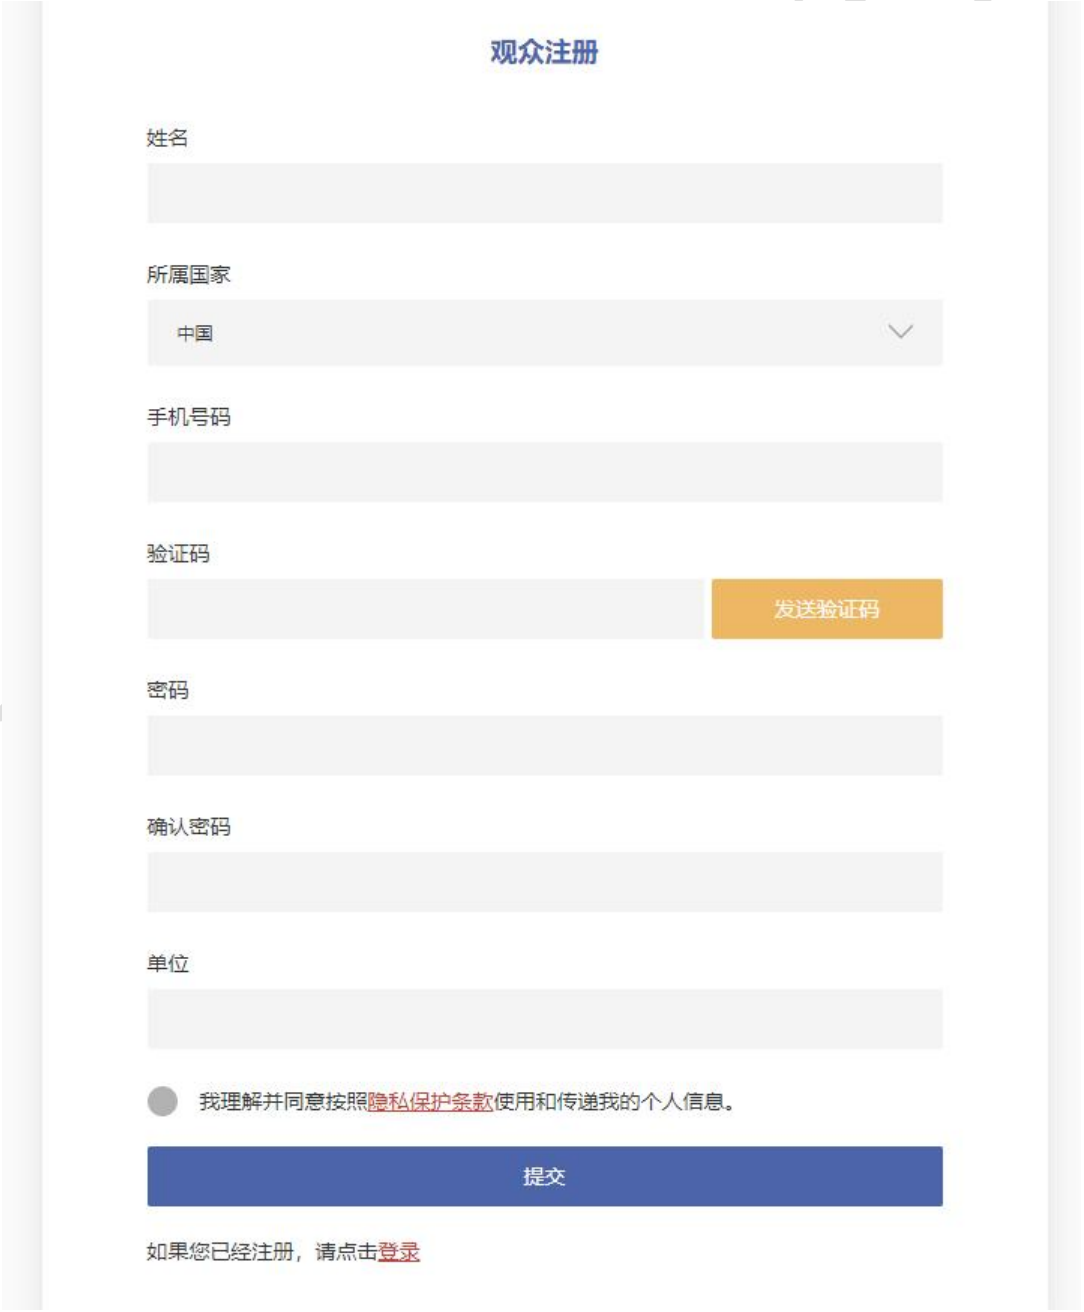


(3). Audience Registration

Users without China Mining Cloud Platform accounts may click

on Register to register an account.

On the registration page, please enter your name, country, cell phone number, email (for users outside mainland China), verification code, password, confirm password, organisation name, read and check privacy protection terms, then click submit to complete registration.

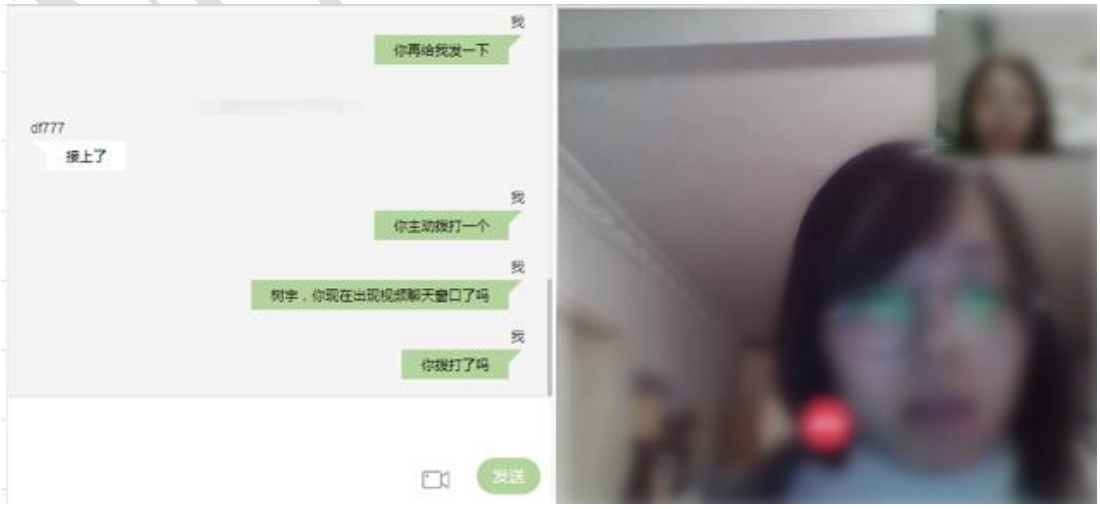


2. Personal Itinerary

Personal Itinerary shows the opening ceremony, main forum, thematic forums, and other events saved by the user. You can click on any saved event to view its agenda.

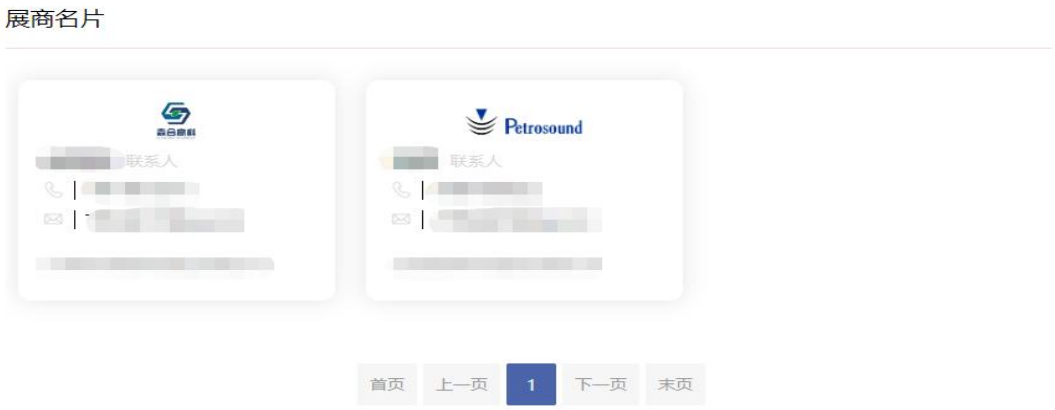
3. All Messages

If a participant initiate “online discussion” with an exhibitor at its booth (chat, pictures and video call supported), then All Messages will show a dialogue box with the messages between the participant and the exhibitor.



4. Exhibitor Cards

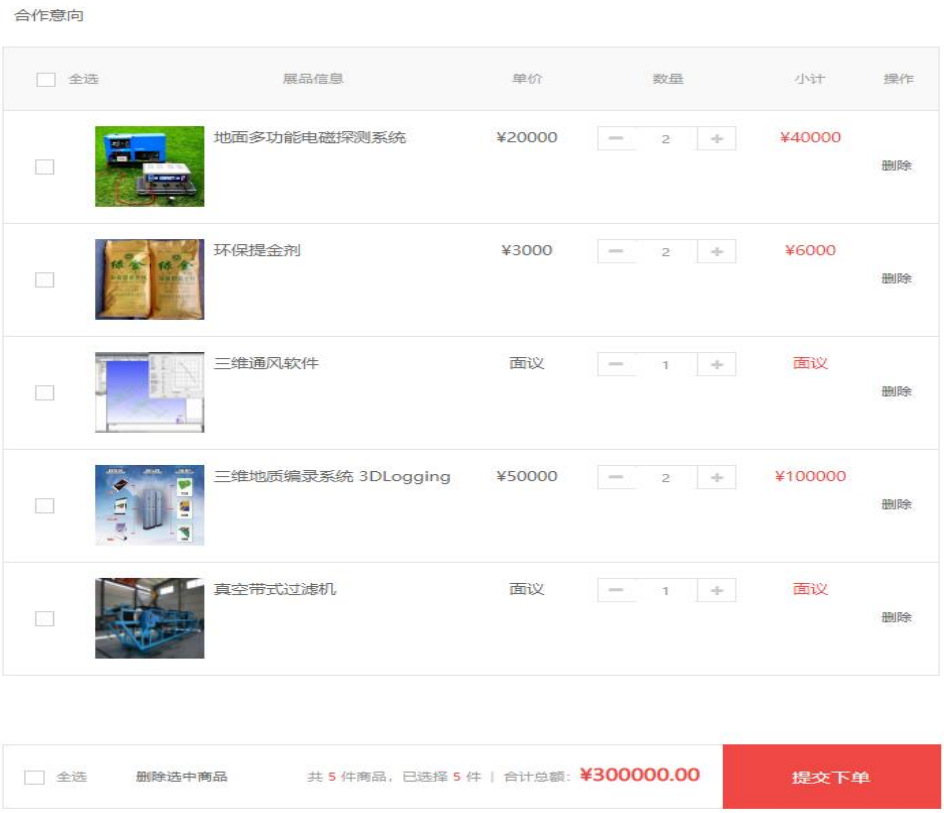
Exhibitor Cards section shows the electronic business cards users have obtained from exhibiting companies or organisations. This helps them keep track of contact information of potential partners. The cards contain names, cell phone numbers and emails.

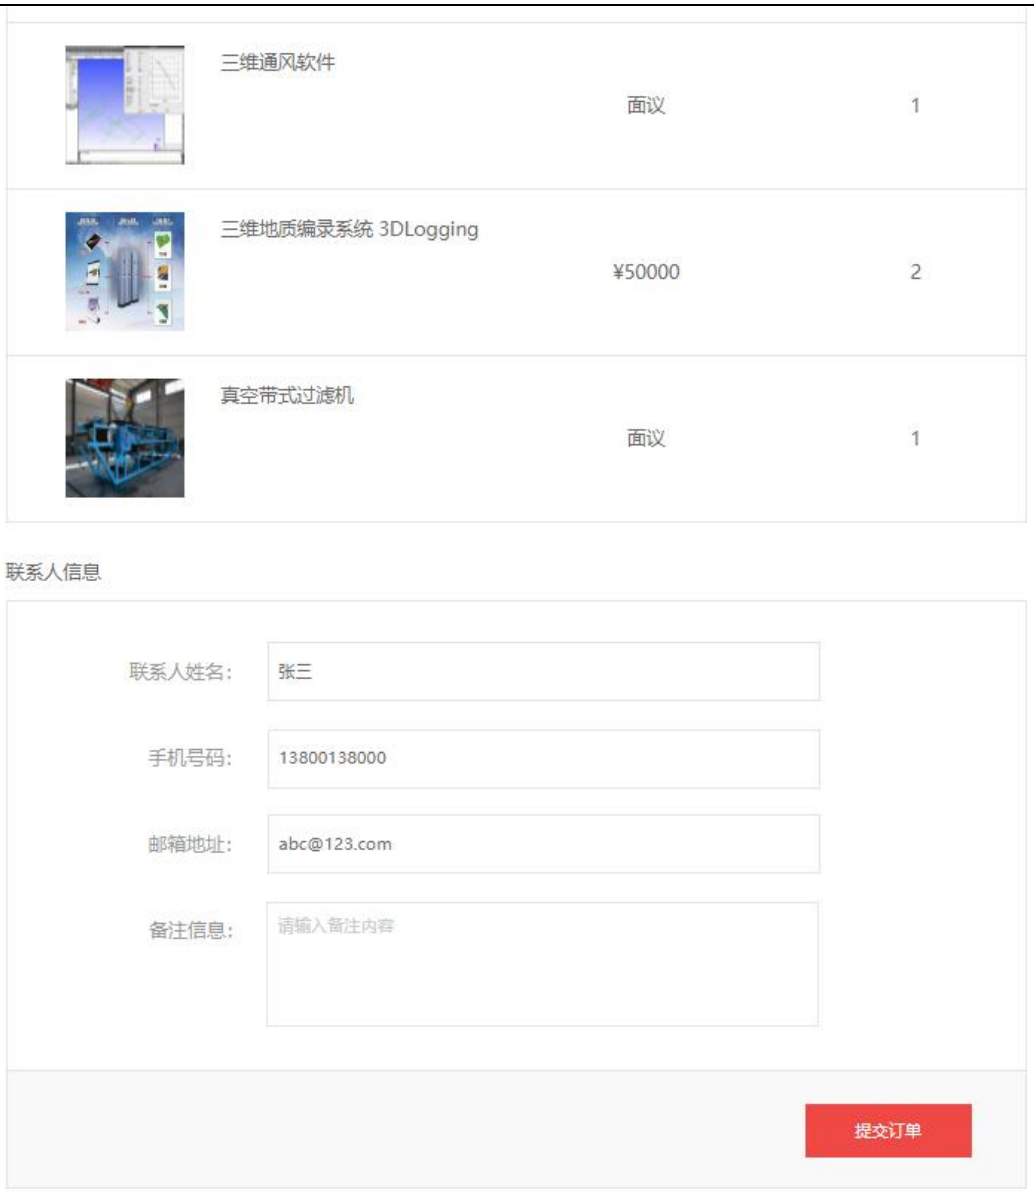


5. Intention of Cooperation

The Intention of Cooperation section enables order placement on exhibits. When viewing exhibits on the Cloud Platform, users may click on Intention of Cooperation button, and all such items that the user intend to purchase will be listed here. In this list, the user may select quantity and confirm price on exhibits to buy. After confirming, the user may click on Submit and enter verification page.

After confirming item information in the verification page, please enter your organisation and contact details to complete the process. Exhibiting companies or organisations will receive “order information” and track intention of cooperation in real time and use the contact details towards offline transaction and cooperation.





6. My Orders

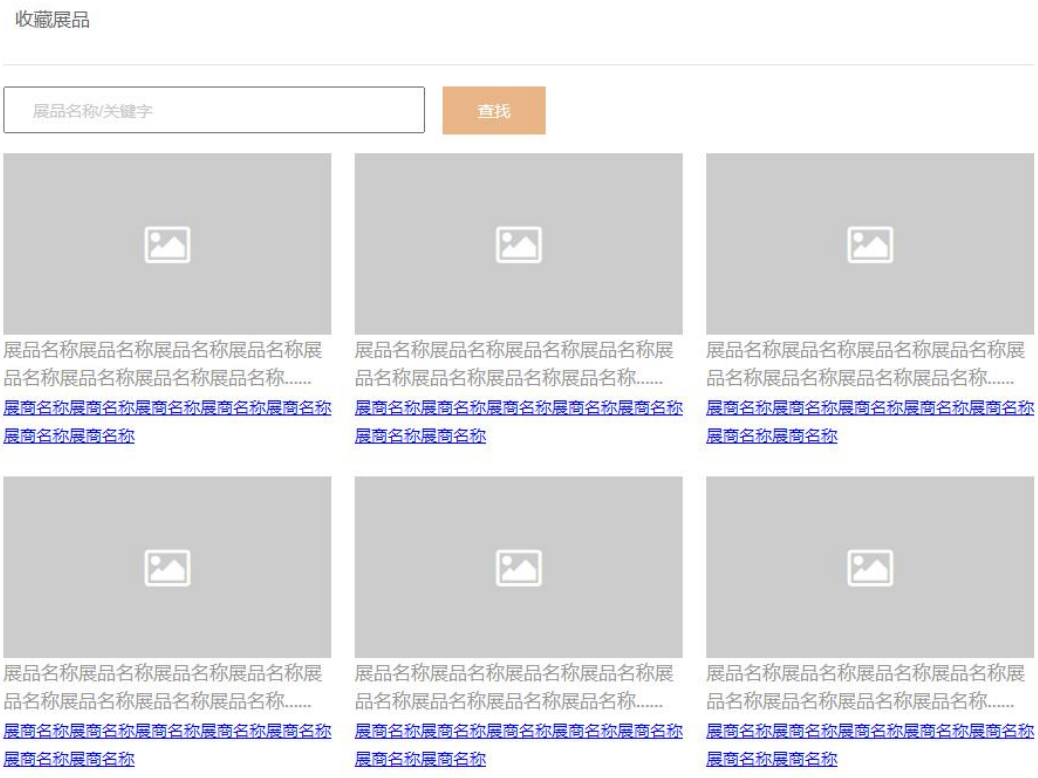
My Orders section is linked to Intention of Cooperation. When users have submitted item information in Intention of Cooperation, the data will be synced in My Orders to help with tracking and retracing order information.

7. Saved Exhibitors

Saved Exhibitors section shows the exhibiting companies and organisations on the Cloud Platform saved by the user. In the saved list, users may view company information and click on a company to enter its booth page.

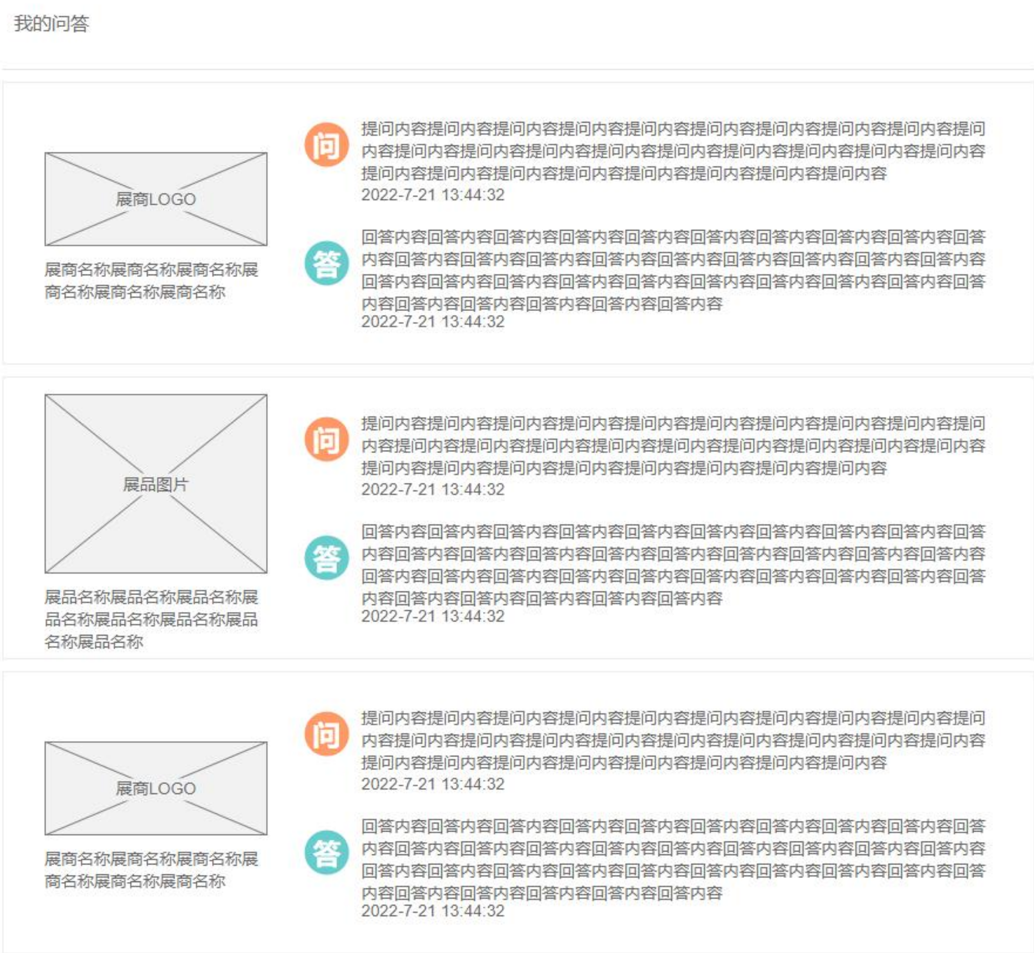
8. Saved Exhibits

Saved Exhibits section shows the exhibits on the Could Platform saved by the user. In the saved list, users may view exhibit information and click on an exhibit to enter its display page.



9. My Q&A

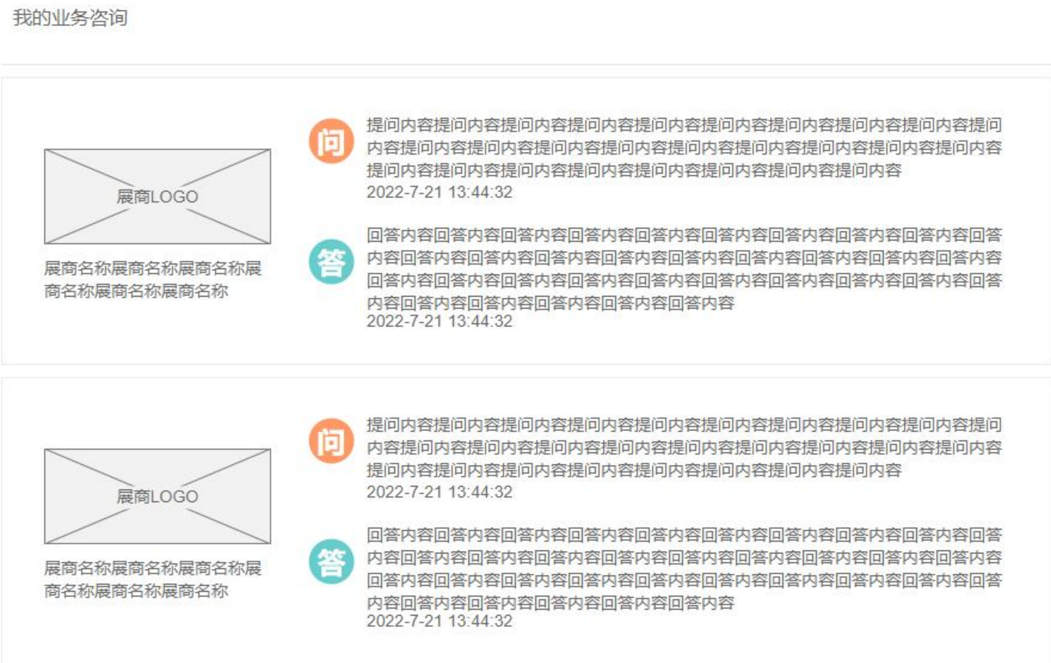
My Q&A shows the users questions to exhibitors on the exhibitors or their exhibits, including the questions, time, answer, and answer time. This helps the users obtain the information they need on the exhibitors or their exhibits.



10. My Business Inquiries

My Business Inquiries is specifically aimed at exhibiting laws firms and accounting firms. This allows users to make inquires on

mining laws and regulations, and finance and accounting. A list will show the inquires made and time, and responses and time.



11. Audience Payment

Audience Payment section provides payment verification function to Cloud Platform users.

The online audience on the Cloud Platform come in three types: visitor, participant, and VIP participant.

Visitors are audience members without registration. Visitors have limited access on the Cloud Platform: basic information such as conference introduction, opening ceremony, country pavilions, and list of exhibitors. For more detailed information, they need to complete online registration and become members of the Cloud

Platforms.

After registration, visitors become members of the Cloud Platform, and become conference participants by default and free-of-charge. To upgrade as VIP participants, the system will verify the user's identity based on the "name of organisation" filled in during registration. If the organisation is a CMA member, the user is upgraded as VIP free-of-charge; if the organisation is not a CMA member or no organisation information was provided, upgrading to VIP requires payment. After completing payment, the organisers will upgrade the account and update rights.

Participant and VIP participant fee standards and rights are as follows:

Service Recipient	Fee	Rights	Discount
Regular Participant	0 RMB/person	Regular participants have free access to recordings of the opening ceremony, main forum, online exhibitions, live-streams of project promotions and mining interviews for one year.	No fees for regular participants.
VIP Participant	1,000 RMB/person	VIP participants have free access to recordings of the opening ceremony, main forum, thematic forums, online exhibitions, live-streams of project promotions, mining interviews, and previous editions of the conference for one year.	Free for natural resource management agencies, China Geological China Geological Survey Bureau, members of conference organising committee, CMA members, and relevant industry associations. 1000 RMB/person for non-members.
Note	Students can upgrade to VIP participants upon producing student ID free-of-charge.		

Participants may pay online or offline. For offline payment, please pay to: China Mining Association Account (Beneficiary: China Mining Association, Account No.: 0200224019200025093, Bank branch: Industrial and Commercial Bank of China Limited Beijing Zhaodengyu Road Sub-branch). On the transfer, please note the full name of the invoiced party, and online exhibition services such as “project promotion live-stream” as invoice item. The invoices issued by the conference will be VAT General Invoices.(Contact 010-66557685 for invoicing.)

12. Invoicing

The online Invoicing section enables invoice request and issuing functions. Both VAT general and VAT special invoices are available.

13. Help Manual

The system manual of the Cloud Platform and other necessary documents are available at the Help Manual section and the Download section on the homepage.

14. Notes

This guide may be updated subject to system updates. You'll always find the latest version on the China Mining Cloud Platform.
