## Invitation to the 2022 (24th) China Mining Conference and Exhibition

The 2022 (24th) China Mining Conference and Exhibition will be held from September 21 to 23, 2022 in an online+offline format. The event is hosted by China Mining Association, managed by Tianjin Minexpo Co., Ltd., and supervised by the Ministry of Natural Resources of the People's Republic of China and the People's Government of Tianjin.

Since its inception in 1999, the annual China Mining Conference and Exhibition (China Mining) has evolved over 23 successful years to become one of the largest and most influential mining events of the world. China Mining cover the whole mining industry chain, from geological survey, exploration and development, technology and equipment, investment and finance, to services and trade. It is a weathervane of mining markets and industries and a critical platform for sustainable growth in the mining sector.

As an exercise of the Xi Jinping Thought on Diplomacy and the New Development Concept, and in service of national diplomatic strategies and the economy at large, China Mining 2022 takes on

中国矿业联合会  
CHINA MINING ASSOCIATION

the theme of *Sustainable Mining, for Sustainable Economic Growth*. The event features an opening ceremony, keynote session, panel discussion, online exhibition, country pavilions, <Dialogue>the interview, and workshops. It focuses on the most current topics in the world of mining, highlights strategic supply and demand landscapes as well as new ideas in the mining sector. It is a platform for participating countries, organisations and companies to promote themselves, explore new cooperation models, build new partnerships and receive effective services.

**Conferences:** main forum and thematic forums, conducted offline and live-streamed online.

**Exhibitions:** online exhibitions run on the China Mining Cloud Platform. This year's exhibition covers six categories: natural resource management agencies, mining companies, geological exploration organisations, industry associations, equipment companies, and service agencies. Different types of exhibitions are offered online booths with various functions, including exhibitor live-streams, online chat, exchanging business cards, saving exhibits, and Q&A. Exhibits can be displayed via texts, pictures, videos, live-streams and VR, free from time and space limitations

中国矿业联合会  
CHINA MINING ASSOCIATION

and available on the Cloud Platform for a full year, which are some of the benefits of exhibiting online.

**Country Pavilions (formerly Country Promotion):** to enrich the Country Promotion feature, it has been upgraded to the Country Pavilions. In their individual pavilions, each country may use information in a range of formats to present basic facts, mining resource potentials, as well as mining investment environment, opportunities, and success stories in their countries.

**Mining Interviews:** a high-level platform for exchanging ideas by leading personalities in the mining sector the world over. Guests share their takes on current issues or concerns in the industry, contribute to safe, green, innovative and integrative development paths, and spread new ideas, concepts, methods and technologies, all for the sustainable development of the mining sector.

**Workshops:** interactive lectures by leading experts, managers, academics, and entrepreneurs on development trends, market highlights, cutting edge technologies, policies, the environment, etc.

The goals of the China Mining Conference and Exhibition are to build an effective platform for exchange and cooperation, provide
